Actions taken under the authority of this clause do not establish privity of contract between Buyer and Seller's subcontractors under this contract, and Buyer will not provide direction to or request action by any subcontractor. Notwithstanding other terms in the subcontract, all subcontractors must respond to direct requests for information from Buyer.

(3) The requirements of this clause shall be included in all subcontracts directly chargeable to this contract, except for those subcontracts with US-owned companies to provide only unclassified commercial products and/or services on a fixed-price basis.

An export license is required before assigning any foreign source to perform work under this contract or before granting access to foreign persons to any equipment and technical data generated or delivered during performance (see 22 CFR Section 125). Seller shall notify Buyer and obtain the written approval of Buyer prior to assigning or granting access to any work, equipment, or technical data generated or delivered in the performance of this contract to foreign persons or their representatives. Such insurance shall not be maintained on a per-project basis unless the respective Seller or subcontractor thereof does not have blanket coverage.

c. Automobile Liability. If licensed vehicles will be used in connection with the performance of the work, Seller shall carry and maintain, and ensure that any subcontractor thereof who uses a licensed vehicle in connection with the performance of the work carries and maintains, throughout the period when work is performed and until final acceptance by Buyer, Business Automobile Liability insurance covering all vehicles, whether owned, hired, rented, borrowed or otherwise, with available limits of not less than one million dollars (\$1,000,000) per occurrence combined single limit for bodily injury and property damage.

If Seller fails to do so, Buyer may do so and recover from Seller the cost thereof.

Buyer and Seller shall each keep confidential and protect from unauthorized use and disclosure all (a) confidential, proprietary and/or trade secret information; (b) tangible items and software containing, conveying or embodying such information; and (c) tooling identified as being subject to this article and obtained, directly or indirectly, from the other in connection with this contract or other agreement referencing this contract (collectively referred to as "Proprietary Information and Materials"). Buyer and Seller shall each use Proprietary Information and Materials of the other only in the performance of and for the purpose of this contract and/or any other agreement referencing this contract. However, despite any other obligations or restrictions imposed by this article, Buyer shall have the right to use, disclose and reproduce Seller's Proprietary Information and Materials, and make derivative works thereof, for the purposes of testing, certification, use, sale, or support of any goods delivered under this contract or any other agreement referencing this contract. Seller shall not, without the prior written authorization of Buyer, sell or otherwise dispose of (as scrap or otherwise) any parts or other materials containing, conveying, embodying or made in accordance with or by reference to any Proprietary Information and Materials of Buyer. Prior to disposing of such parts or other materials as scrap, Seller shall render them unusable. Buyer shall have the right to audit Seller's compliance with this article.
