ARMED BLACK HAWK® The Multi-Mission Cost-Effective Solution for 21st Century Security Challenges

One Aircraft. Multiple Missions.

- **Firepower meets lift:**
Combines the lethality of an attack helicopter with the versatility of a utility platform.
- **All-mission capability:**
Air-mobile assault, close-support, medical evacuation, ISR and tactical lift—all in a single, proven airframe.
- **Modernized partnership:**
Continued U.S. Army collaboration ensures the Black Hawk stays ahead of future security requirements.

Unmatched Value

- **Lower acquisition cost:**
Significantly more affordable than comparable attack helicopters.
- **Reduced lifecycle expense:**
More missions per dollar.
- **Proven, crash-worthy airframe:**
Redundant systems and a service record trusted worldwide.
- **Robust supply chain:**
Backed by long-term U.S. government support of Black Hawks through 2070.
- **Maintenance & Training Savings:**
Incurred with a single-use fleet.

New & Improved Production-Ready Kits

Choose today, upgrade tomorrow:
Modular kits allow customers to field the baseline platform now and add advanced capabilities as needs evolve.

One Fleet for Multi-role Missions

Armed/Assault:

- Federated Weapons Mgmt Suite
- 6 weapon stations
- 2 × 7.62 mm guns
- Podded .50 cal GP 19
- 19 rocket MEL pod
